Tel: +31-(0)570-687500

Fax: +31-(0)570-687574

Few applications were developed that can be found at www.zanob.nl (in Dutch language) – **THESE APPLICATIONS WILL NOT BE AVAILABLE ON OUR WEB PAGE BUT THEY ARE AVAILABLE ON REQUEST:**

1. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Desipramine, Imipramine, Clomipramine and D-Clomipramine in serum after Solid Phase Extraction
2. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Maprotiline and Desmethyl-Maprotiline in serum after Solid Phase Extraction
3. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Midazolam and Hydroxy-Midazolam in serum after Solid Phase Extraction
4. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Mirtazepine, D-Mirtazepine, Citalopram, D-Citalopram, Sertraline and D-Sertraline in serum after Solid Phase Extraction
5. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Clozapine, D-Clozapine, Nortriptyline, Hydroxy-nortriptyline and Amitriptyline in serum after Solid Phase Extraction
6. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Paroxetine, Fluvoxamine, Fluoxetine and D-Fluoxetine in serum after Solid Phase Extraction
7. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Propafenone in serum after Solid Phase Extraction
8. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Risperidon, Hydroxy-Risperidon, Pericacine, Haloperidol, Bromperidol and Flufenazine in serum after Solid Phase Extraction
9. Systematic Toxicological Identification Procedure (STIP) as a TDM- method for Venlafaxine, D-Venlafaxine, Pipamperon, Quetiapine, Zuclopentixol and Pimozide in serum after Solid Phase Extraction
10. Identification and semi-quantification of drugs of abuse in urine using Solid Phase Extraction and STIP-doa system

Application example is attached.
